Individual Entity Audit Report

A communication to the Joint Finance-Appropriations Committee

EASTERN IDAHO PUBLIC HEALTH DISTRICT (VII)

FY 2008-2009

Report OP95709 Date Issued: June 24, 2010

Don H. Berg, Manager

Idaho Legislative Services Office Legislative Audits Division

EASTERN IDAHO PUBLIC HEALTH DISTRICT (VII)

SUMMARY

PURPOSE OF AUDIT REPORT

We have audited the financial statements of the Eastern Idaho Public Health District (VII) for the fiscal years ended June 30, 2008 and 2009, in accordance with auditing standards generally accepted in the United States of America. The purpose of our audit is to determine whether the District's financial statements are materially accurate and reliable, and that it complied with laws and regulations affecting fiscal operations.

CONCLUSION

We conclude that the District's financial statements are materially accurate and reliable, and fiscal operations materially comply with related laws and regulations. As a result, we issued an unqualified opinion on the District's financial statements.

FINDINGS AND RECOMMENDATIONS

There is one finding and recommendation in this report.

Finding 2009S-1 – <u>Internal control weaknesses exist in the process for preparing the financial statements</u>, note disclosures, and the Schedule of Expenditures of Federal Awards (SEFA).

The complete finding and recommendation is detailed on pages 27 and 28.

PRIOR FINDING AND RECOMMENDATION

There was one finding and recommendation in the prior report. The complete finding and recommendation status is detailed on page 30.

Prior Finding 2007S-1 – <u>Internal control weaknesses exist in the process for preparing the financial statements and note disclosures</u>. **Status: CLOSED**

A copy of this report is available online at: http://www.legislature.idaho.gov/audit.

AGENCY RESPONSE

The District has reviewed the report and is in general agreement with its contents.

OTHER INFORMATION

We discussed other issues which, if changed, would improve internal control, compliance, and efficiency.

This report is intended solely for the information and use of the State of Idaho, the Eastern Idaho Public Health District and the District's Board, and is not intended to be used by anyone other than these specified parties.

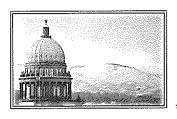

We appreciate the cooperation and assistance given to us by the director, Richard Horne, and his staff.

Unqualified Opinion on Basic Financial Statements

Independent Auditor's Report

Richard Horne, Director Eastern Idaho Public Health District (VII) 1250 Hollipark Drive Idaho Falls, ID 83401 Robert Cope, Chair District VII Board of Health 1610 Main Street Salmon, ID 83467

Dear Mr. Horne and Mr. Cope:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the remaining fund information of the Eastern Idaho Public Health District (VII), as of and for the years ended June 30, 2008 and 2009, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities of the major fund and the remaining fund information of the District as of June 30, 2008 and 2009, and the respective changes in financial position for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Mike Nugent, Manager Research & Legislation Cathy Holland-Smith, Manager Budget & Policy Analysis

Don H. Berg, Manager Legislative Audits Glenn Harris, Manager Information Technology

In accordance with Government Auditing Standards, we have also issued our report dated June 24, 2010, on our consideration of the District's internal control over financial reporting, and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered when assessing the results of our audit.

The District has not presented the Management Discussion and Analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be part of, the basic financial statements.

The budgetary comparison information on pages 17 and 18 is not a required part of the basic financial statements, but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for the purpose of additional analysis as required by OMB Circular A-133, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Sincerely.

Don H. Berg, CGFM, Manager

Legislative Audits Division

NOTES TO FINANCIAL STATEMENTS

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES

REPORTING ENTITY

The Health District is not a State agency. In determining how to define Eastern Idaho Public Health District for financial reporting purposes, management has considered all potential component units in accordance with GASB Statement 14, as amended by GASB Statement 39. The legislature created seven health districts throughout the State in 1970. In1976, the legislature expressed specific intent that the districts were not to be considered State agencies, but were to be recognized as authorized governmental entities. Although the districts are not State agencies, all districts have opted to process their financial transactions through the State accounting system.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (Statement of Net Assets and the Statement of Activities) report information on all activities of the District. These activities are financed through General Fund appropriations, county contributions, federal grants, and program revenues.

The Statement of Net Assets presents the District's assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

- 1. Invested in Capital Assets, Net of Related Debt are capital assets net of accumulated depreciation and reduced by related outstanding debt.
- 2. Restricted Net Assets result when constraints placed on net asset use are externally imposed by contributors, by law, or by enabling legislation.
- 3. Unrestricted Net Assets consist of net assets that do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources that are imposed by management, but can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. Program revenues include fees and charges paid by recipients of goods or services offered by the program. Appropriations, contributions, interest income, and other items not meeting the definition of program revenues are reported as general revenue. Immaterial differences in the statements are due to rounding.

Separate financial statements are provided for governmental funds. Individual governmental funds are reported as separate columns in the fund financial statements.

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. All assets and liabilities are presented on the Statement of Net Assets. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under governmental fund accounting, only current assets and current liabilities are generally included on the balance sheet. Revenues are recognized when

measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within 60 days after the year end for sales of services, interest, federal grants, and contracts, or 90 days for county contributions. Sales of services, interest, and federal grant expenditures are considered to be susceptible to accrual. Expenditures are recorded when a liability is incurred, except for compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds.

The District has one major governmental fund. The Special Revenue Fund accounts for all financial resources of the District, except for those required to be accounted for in the Millennium Fund.

ASSETS, LIABILITIES, AND NET ASSETS

Cash

The District's cash is considered to be cash on hand and on deposit with the State Treasurer's Office

Investments

Investments are reported at fair value. Additional disclosure is included in Note 3.

Accounts Receivable

Accounts receivable consist of county contributions, federal grants, and client accounts.

Inventories and Prepaid Items

The District uses the purchases method of accounting for inventory. The District uses the purchases method for all prepaid expenses that are prepaid for 12 months or less. The District has recorded one significant prepaid item (see Note 11).

Capital Assets

Purchased capital assets are reported at cost. Assets donated or acquired at bargain purchase prices from unrelated parties are reported at market value at date of donation. Assets acquired from related parties are reported at depreciated cost at time of acquisition. Only capital assets with a value of \$5,000 or greater are capitalized. Depreciation is recorded using the straight-line method over its estimated useful life as follows:

 $\begin{array}{ll} \mbox{Equipment} & 3-10 \mbox{ years} \\ \mbox{Building/Improvements} & 15-40 \mbox{ years} \\ \mbox{Vehicles} & 7 \mbox{ years} \\ \end{array}$

Maintenance, repairs, and minor renewals are charged as operating expenses when incurred. When an asset is disposed of, accumulated depreciation is deducted from the original cost and any gain or loss arising from its disposal is credited or charged to operations.

Additional disclosures related to capital assets are provided in Note 6.

Accounts Payable

Payables in the government-wide financial statements consist primarily of short-term vendor obligations.

Unearned Revenue - Deferred Revenue

Unearned revenue is recorded when cash is received prior to being earned. Unearned revenue is reported on the government-wide statements. In the governmental fund statements deferred revenue includes unearned revenue in addition to revenue that is earned but not available. Deferred revenue also includes accounts receivable from health-services clients that are not collected in the 60 days after year end.

Non-Current Liabilities

Government-wide financial statements report long-term obligations as liabilities, with the portion payable within 12 months designated separately from the portion payable in more than 12 months. Long-term liabilities include compensated absences payable (see Note 4 for more detail) and Zions bank loan payable (see Note 8 for more detail).

Net Assets

Net assets include investments in capital assets net of related debt. Restricted assets, if any, are assets whose use is restricted by grantors, contributors, laws, or regulations. Unrestricted assets are assets that do not fall into one of those two categories.

REVENUES AND EXPENDITURES/EXPENSES

In the government-wide Statement of Activities, revenues and expenses are segregated by activity and then by function. Additionally, revenues are classified as program or general revenues. Program revenues include charges to clients or applicants for services provided and certain grants and contributions. General revenues include Idaho State appropriation, county contributions, and interest.

In the governmental fund financial statements, revenues are reported by source and expenditures are reported by function. The Special Revenue Fund is used to account for all of the District's activities except tobacco cessation, which is accounted for in the Non-Major Fund.

Special Item

Included in general revenue for fiscal year 2008, is a loss on the sale of the Idaho Falls building owned by the District. (See related party Note 9 for additional detail.)

NOTE 2. CHANGE IN ACCOUNTING PRINCIPLE – RESTATEMENT OF BEGINNING FUND BALANCE AND NET ASSETS

County Contribution Accrual

The beginning balances of accounts receivable and deferred revenues were restated to reflect a change in accounting principle for the county contribution pledge. Historically, county contributions received were reported on a cash basis, plus any outstanding county receivables recorded as of June 30 of the applicable fiscal year. The change is to comply with *GASB Statement* 33 paragraph 24 which states in part "...the applicable period for both the provider and the recipients is the provider's fiscal year and begins on the first day of that year.... The entire award should be recognized at that time." The closed beginning balance of accounts receivable at July 1, 2007, was restated by \$226,663 to accrue the total county pledge through September 30, 2007. The fund balance was restated by \$226,663.

NOTE 3. INVESTMENTS

The District participates in the State Treasurer's internal and external investment pools. The Idle Fund is an internal investment pool managed by the State Treasurer's Office on behalf of

participants. Money not needed to meet immediate operating obligations is invested in accordance with Idaho Code, Sections 67-1210 and 67-1210A. Participation in the pool is voluntary.

The District participates in the Local Government Investment Pool (LGIP) and the Diversified Bond Fund (DBF). Both are external investment pools sponsored by the State Treasurer's Office. A copy of the State's *Comprehensive Annual Financial Report (CAFR)*, including the investment pool's financial statements, is available from the Office of the State Controller, Bureau of Reporting and Review, or on the Controller's Web site (www.sco.idaho.gov).

Idaho Code, Sections 67-1210 and 67-1210A restrict the State Treasurer to certain types of investments.

A portion of the debt issued for the purpose of constructing a new Idaho Falls office is held in a debt service reserve trust by Zions Bank until the debt is paid in full. The debt service amount of \$158,371 is held as collateral against required payments until the last payment on the bonds is made. Any interest earned can be used for payments on the outstanding Zions debt. The funds are invested in the Dreyfus Treasury and Agency Cash Management Fund. The Dreyfus Treasury and Agency Cash Management Fund is rated AAA by Standard & Poor's. That fund invests 100% in repurchase agreements with one day maturities. The repurchase agreements are 100% collateralized by U.S. treasury notes, bills, strips, or other direct U.S. Treasury obligations. These investments are reported as restricted assets.

Credit Ratings

The LGIP and DBF are rated AAAf by Standard & Poor's Rating Services signifying that the portfolio holdings provide extremely strong protection against losses from credit defaults.

The District does not have a formal policy to address credit risk.

Interest Rate Risk

Interest rate risk is the risk that changes in interest will adversely affect the fair value of the District's investments.

The District does not have a formal policy to address interest rate risk.

The following schedule represents the District's investments in the external investment pool and mutual funds, and a distribution of their maturities at June 30, 2008 and 2009.

June 30, 2008	Fair Value	<u>Maturity</u>
LGIP	\$1,705,274	<1 year
Diversified Bond Fund	877,872	4.6 year average
Dreyfus (mutual fund)	<u>160,200</u>	l day average
	\$2,743,346	
June 30, 2009		
LGIP	\$1,644,866	<1 year
Diversified Bond Fund	933,355	2.8 year average
Dreyfus (mutual fund)	<u>159,318</u>	I day average
	\$2,737,539	

NOTE 4. COMPENSATED ABSENCES

The District is not part of the State, but has decided to follow State rules on compensated absences. The District employee benefits include vacation and sick leave allowances. Overtime may be earned under provisions of the Fair Labor Standards Act and State law. Overtime is commonly referred to as "compensatory time" or "comp time" since employees may take time off for the accrued overtime. For the purposes of earning and accruing overtime there are three general classes of employees:

- 1. Those who earn overtime at 1.5 times regular pay rates and may be paid for the overtime or take time off.
- 2. Those who earn overtime at the same rate as regular pay rates and may only take time off.
- 3. Those ineligible for overtime.

Upon termination, the following accrued leave balances are paid:

- 1. Vacation leave.
- 2. Overtime for those eligible for payment.

As of June 30, 2008 and 2009, the following compensated absences have been accrued by District employees. These amounts are reported on the government-wide financial statements. A liability for the amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignation or retirement. Compensated absences are paid from the District's main operating fund.

The District estimates the amount due within one year is \$237,229.

NOTE 5. PENSION PLAN

The Public Employee Retirement System of Idaho (PERSI) was created by the Idaho State Legislature and administers the PERSI Base Plan and the PERSI Choice Plan. The authority to establish and amend benefit provisions is established in Idaho Code. Designed as a mandatory system for eligible State and school district employees, the legislation provided for political subdivisions to participate by contractual agreement with PERSI.

PERSI issues publicly-available, stand-alone financial reports that include audited financial statements and required supplementary information. PERSI's annual financial reports are available on the PERSI Web site (www.persi.idaho.gov) or upon request from the PERSI office.

The Base Plan is a cost-sharing, multiple-employer defined benefit retirement plan requiring that both the member and the employer contribute. The plan provides benefits based on members' years of service, age, and compensation. In addition, benefits are provided for disability or death and to survivors of eligible members or beneficiaries.

After five years of credited service, members become fully vested in retirement benefits earned to date. Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. For each month of credited service, the annual service retirement allowance is 2.0% of the average monthly salary for the highest consecutive 42 months.

The actuarially determined contribution requirements of the District and its employees are established and may be amended by the PERSI Retirement Board of Trustees. For the period from July 1, 2007 to June 30, 2009, the required contribution rate as a percentage of covered payroll was 6.23% for general members. The employer rate as a percentage of covered payroll was 10.39% for general members. District contributions required and paid were \$330,091, \$350,478, and \$358,015 for the years ended June 30, 2007, 2008, and 2009 respectively.

The PERSI Choice Plan is a defined contribution retirement plan. The defined contribution plan includes the 401(k) and the 414(k). Statutes governing the PERSI Choice Plan are found in Idaho Code, Title 59, Chapter 13. The 414(k) plan was established for gain-sharing allocations from the PERSI Base Plan. The gain-sharing amount (if any) is based on funding levels in the PERSI Base Plan.

The 401(k) plan is open to all active PERSI Base Plan members. Eligibility for the 414(k) gain sharing requires twelve months of active PERSI membership as defined in Idaho statutes and PERSI rules. The assets of the 401(k) and the 414(k) are commingled for investment and record keeping purposes. The other significant accounting policies are the same as the PERSI Base Plan.

Participants in the 401(k) plan can make tax-deferred contributions up to 100 percent of the gross salary less deductions and subject to the IRS annual contribution limit. Participants direct their own investment mix without restriction and may elect to change their deferral every pay period. For the audit period, no voluntary employer matching contributions have been made.

Additionally, PERSI administers the Sick Leave Insurance Reserve Fund, which collects salary-based contributions for state and school employees while employed and pays insurance premiums at retirement based on a portion of the accumulated balance of their unused sick leave. The District prefunds termination payment liabilities related to sick leave and other similar compensated absences with contributions to PERSI during active employment.

NOTE 6. CAPITAL ASSETS

Depreciation is charged to General Support. In FY 2008, depreciation was \$199,280, and in FY 2009, depreciation was \$247,597.

Large decreases in capital assets during the year ended June 30, 2008, in land, buildings, and improvements other than buildings are from the sale of the Idaho Falls office building to Bonneville County. (See Note 9 for details.)

NOTE 7. OPERATING LEASES

The District leases buildings and office equipment under operating leases. They contain various renewal options, some have purchase options and some do not. Operating lease payments are recorded as expenditures of the related funds when paid or incurred. The District's total operating lease expenditures for fiscal years 2008 and 2009 was \$34,117 and \$2,800, respectively.

Future minimum lease commitments for non-cancelable operating leases as of June 30, 2009 are:

Fiscal Year	
2010	\$2,800
2011	2,800
2012	2,250
2013	2,200
2014	2,200
2015-2018	8.800
Total	\$18,850

NOTE 8. LONG-TERM DEBT

Long-Term Debt

On June 15, 2006, the District entered into an agreement with the Idaho Health Facilities Authority to finance the construction of a new office building in Idaho Falls. The Authority obtained funding through a \$2 million loan from Zions Bank, which was funded by the issuance of bonds maturing annually over 20 years. The Authority loaned these funds to the District. Under the provisions of an Indenture, the Authority assigned certain rights including the collection of the loan payments to Zions Bank. Principal payments will be made from the District to Zions Bank in annual installments beginning August 1, 2007 and concluding on August 1, 2026. Interest is payable on August 1 and February 1 of each year. The first payment of \$62,499 was made on February 1, 2007. The interest rate on the loan varies from 4.87% to 5.10%. On August 1, 2011, 2016, and 2021 the interest rate will be subject to adjustment to equal 95% of the Five-Year Advance Fixed Rate as quoted by the Seattle Federal Home Loan Bank.

<u>FY 2008</u>	
Changes to Long-Term Debt	
Beginning Balance - July 1, 2007	\$2,000,000
Increases	0
Decreases	(60,000)
Ending Balance - June 30, 2008	\$1,940,000

The amount due within one year is \$63,000.

<u>FY 2009</u>	
Changes to Long-Term Debt	
Beginning Balance - July 1, 2008	\$1,940,000
Increases	0
Decreases	(63,000)
Ending Balance - June 30, 2009	\$1,877,000

The amount due within one year is \$66,000.

Payments started in fiscal year 2007, with interest only. Future required payments as of June 30, 2009 are:

Fiscal Year	<u>Principal</u>	<u>Interest</u>
2010	\$66,000	\$91,936
2011	69,000	88,611
2012	73,000	85,089
2013	77,000	81,354
2014	80,000	77,425
2015-2019	470,000	320,139
2025-2027	<u>440,000</u>	<u>33,548</u>
Total	\$1,877,000	\$965,223

NOTE 9. RELATED-PARTY TRANSACTIONS

The membership of the District's Board of Health consists of one county commissioner from each of the counties served by the District. In fiscal year 2007, a licensed physician was added to the board. That physician had a preexisting contract with the District to provide medical services for District clients at a large discount. The contract has been disclosed to the rest of the board and continues in force. The board had agreements with two counties (Jefferson and Fremont) that involve loans from District funds to build office space for use by the District. Each quarter, the District paid each county for use of their building. In fiscal year 2008, the District acquired both buildings and stopped paying rent (see Note 10 for details).

During fiscal year 2008, the District had a loss on the sale of a capital asset when the Idaho Falls office building was sold to Bonneville County. The loss was reported as a special item in the Statement of Activities. Anticipating the eventual construction of a new District office in Idaho Falls, the existing building was appraised in April 2005. Considering the appraised value of \$728,000, and an estimated marketing period extending over a year due to significant vacancies in downtown office buildings, the District accepted Bonneville County's offer of \$500,000. The first half was paid in September 2006, and the other half was paid in September 2007. The purchase agreement allowed the District to occupy the building rent free until a new office building was completed. The District turned the building over to Bonneville County in November 2007.

NOTE 10. COUNTY BUILDING LEASED UNTIL ACQUIRED

The District rented office space from two of the eight counties it serves in fiscal year 2008. The District loaned these counties nearly one-half of the cost to build the offices, and the counties obtained Federal Community Block Grants to fund the remaining costs. The District deducted \$4,250 each quarter from the loan balance (\$17,000 per fiscal year) when paying Jefferson County rent billings. The District deducted \$4,750 each quarter from the loan balance (\$19,000 per fiscal year) when paying the Fremont County rent billings.

The District annually computed interest on the December 31 balance at a rate based on the December Local Government Investment Pool rate of return, because this is the rate of return the funds would have earned if left on deposit with the State Treasurer. The calculated amounts are recorded on a schedule maintained by the District's fiscal officer. The calculated interest amounts for fiscal years 2008 were:

FY 2008	
Jefferson County	\$1,934
Freemont County	2,222
Total	<u>\$4,156</u>

On May 1, 2008, the District acquired the Jefferson County office building that was previously being rented by the District. On June 30, 2008, the District acquired the Fremont County office building that was previously being rented by the District. Since the buildings were acquired from a related party and the original cost was known, the buildings were added to capital assets at depreciated cost. The details of each building are below.

Jefferson County Building Acquisition			
Original Total Cost Land		\$23,000	
Original Total Cost Building	\$344,590		
Depreciate Building Starting December 1993 Using 40 Year Straight Line	(116,299)	228,291	
Total Depreciated Cost Basis		\$251,291	
Acquired by Purchase			
District Payment in Cash	\$34,962		
District Payment by Forgiveness of County Receivable	37,068	72,030	
Value of Building Acquired Booked as Donation			\$179,261
Fremont County Building Acquistion			
Original Total Cost Land		\$35,021	
Original Total Cost Building	\$544,650		
Depreciate Building Starting July 1997 Using 40 Year Straight Line	(149,779)	394,871	
Total Depreciated Cost Basis	•	\$429,892	
Acquired by Purchase			
District Payment by Forgiveness of County Receivable	\$39,606	39,606	
Value of Building Acquired Booked as Donation			\$390,286
Total Value of Buildings Acquired by Donation		=	\$569,547

NOTE 11. PRE-PAID RENT

In fiscal year 2003, the District entered into a long-term lease for office space in Challis. The District prepaid \$198,240 for a 30-year lease with the Custer Health Care Association, Inc. The District occupied the property beginning July 2003, at which time the prepayment started being amortized. The amount amortized and balance remaining is:

Total Prepaid	\$198,240
Prior Amortized	(26,432)
Amortized FY 2008	(6,608)
Amortized FY 2009	(6,608)
Balance Remaining	<u>\$158,592</u>

NOTE 12. RECEIVABLES NOT EXPECTED TO BE REALIZED WITHIN 12 MONTHS

Included in receivables are Medicaid receivables not expected to be collected within 12 months.

For the year ended June 30, 2008 \$186,700 For the year ended June 30, 2009 \$185,600

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

NOTE 1. BUDGET COMMITTEE

The Chairmen of the Boards of County Commissioners located within the Public Health District serve as the Budget committee of the Public Health District. The District Board of Health will submit the budget to the Budget Committee. The budget is prepared on a cash basis. The budget for the Public Health District shall be approved by a majority of the Budget Committee. Any adjustment of the budget is approved by the District Board of Health.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Richard Horne, Director Eastern Idaho Public Health District (VII) 1250 Hollipark Drive Idaho Falls, ID 83401 Robert Cope, Chair District VII Board of Health 1610 Main Street Salmon, ID 83467

Dear Mr. Horne and Mr. Cope:

We have audited the financial statements of the governmental activities, major fund, and the remaining fund information of the Eastern Idaho Public Health District (VII) as of and for the years ended June 30, 2008 and 2009, which collectively comprise the District's basic financial statements and have issued our report thereon dated June 24, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or a combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

Mike Nugent, Manager Research & Legislation Cathy Holland-Smith, Manager Budget & Policy Analysis Don H. Berg, Manager Legislative Audits Glenn Harris, Manager Information Technology A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the entity's internal control that might be significant deficiencies that are also considered to be material weaknesses. We consider the deficiency described in Finding 09S-1 in the accompanying Schedule of Findings and Questioned Costs to be a significant deficiency in internal controls over financial reporting. We also consider this significant deficiency to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

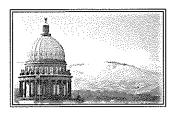

We noted certain other matters that we have reported to the management of the District in a separate letter.

This report is intended solely for the information and use of the State of Idaho, Eastern Idaho Public Health District (VII), and the District's Board, and is not intended to be used by anyone other than these specified parties.

Sincerely

Don H. Berg, CGFM, Manager

Independent Auditor's Report on Compliance with Requirements Applicable to Each Major Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133

Richard Horne, Director Eastern Idaho Public Health District (VII) 1250 Hollipark Drive Idaho Falls, ID 83401 Robert Cope, Chair District VII Board of Health 1610 Main Street Salmon, ID 83467

Dear Mr. Horne and Mr. Cope:

Compliance

We have audited the compliance of the Eastern Idaho Public Health District (VII) with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the years ended June 30, 2008 and 2009. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements, and performing such other procedures that we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the years ended June 30, 2008 and 2009.

Mike Nugent, Manager Research & Legislation Cathy Holland-Smith, Manager Budget & Policy Analysis Don H. Berg, Manager Legislative Audits Glenn Harris, Manager Information Technology

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct, material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, and to test and report on the internal control over compliance in accordance with *OMB Circular A-133*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the management of Eastern Idaho Public Health District (VII), and the federal awarding agencies, and pass-through entities, and is not intended to be, and should not be, used by anyone other than these specified parties.

Sincerely.

Don H. Berg, CGFM, Manager

Legislative Audits Division

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

NOTE 1. BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of the District and is presented on the cash basis of accounting. The information in this schedule is presented in accordance with the requirements of *OMB Circular A-133*, *Audits of States, Local Governments, and Non-Profit Organizations*.

The CFDA refers to the Catalog of Federal Domestic Assistance, which is a government-wide list of individual federal programs. Federal award programs for which we could not determine a number are identified with the first two digits that identify the federal grantor department, followed by ".999."

NOTE 2. WIC FOOD VOUCHERS

The District uses the Idaho Department of Health and Welfare's determination of eligibility, if one exists, for clients participating in the Women, Infants and Children (WIC) program. If a client has not applied through Idaho Department of Health and Welfare for eligibility in federal programs, the District determines eligibility for participation in the WIC program using federal guidelines specific to the program. Within the WIC program, the District distributes food checks to clients and controls un-issued food checks. The Idaho Department of Health and Welfare issues and redeems food checks, controls the food checks issued, and reviews program compliance. The value of the food checks redeemed through the Idaho Department of Health and Welfare was \$4,388,036 for fiscal year 2008 and \$4,970,222 for fiscal year 2009.

NOTE 3. VALUE OF CONTRACEPTIVES

The District provides contraceptives on a sliding fee scale to eligible clients of the federally funded Family Planning, Title X program. The Idaho Department of Health and Welfare purchases the contraceptives and supplies them to the District as needed. The value of contraceptives supplied to the District by the Idaho Department of Health and Welfare was \$102,946 for fiscal year 2008 and \$94,883 for fiscal year 2009.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

SECTION I. SUMMARY OF AUDITOR'S RESULTS

Basic Financial Statements

- 1. The independent auditor's report on the basic financial statements expressed an unqualified opinion.
- 2. The audit of the basic financial statements disclosed a significant deficiency that was considered a material weakness.
- 3. The audit did not disclose any instances of noncompliance considered material to the basic financial statements.

Federal Awards

- 4. The audit did not disclose any significant deficiencies in internal control over major programs.
- 5. The independent auditor's report on compliance for major programs expressed an unqualified opinion for all major programs.
- 6. The audit did not disclose any findings that must be reported in accordance with criteria in Section 510a of *OMB Circular A-133*.
- 7. Major programs are listed below:

Program Title	CFDA Number
WIC	10.557
Public Health Preparedness	93.069

- 8. The dollar threshold used to distinguish between Type A and Type B programs was \$471,048.
- 9. Eastern Idaho Public Health District (VII) did not qualify as a low-risk auditee as defined by *OMB Circular A-133*.

SECTION II. FINANCIAL STATEMENT FINDINGS AND RECOMMENDATIONS

FINDING 2009S-1

<u>Internal control weaknesses exist in the process for preparing the financial statements, note disclosures, and the Schedule of Expenditures of Federal Awards (SEFA).</u>

Internal controls are essential to ensure that financial statements and related notes are accurate and complete. Although the overall internal control structure of the District is good, we identified the following errors and omissions:

a) Transactions related to the receipt of donated buildings totaling \$569,000 were incorrectly included on the Statement of Revenues, Expenditures, and Changes in Fund Balance. The donation of a capital asset should only be included on the governmental financial statements if the asset is sold prior to the issuance of the financial statements. The inclusion of the donated portion of the buildings overstated both capital outlay expenditures and other financing sources.

- b) Donated buildings were included as a net amount in the general revenues section of the Statement of Activities. The forgiving of receivables totaling \$76,000 associated with the donations should have been included in the expenses section of the Statement of Activities instead of netted against the value of the donations.
- c) A WIC contract totaling \$282,000 was omitted from the SEFA.
- d) Payments of long-term debt totaling \$60,000 for fiscal year 2008 and \$63,000 for fiscal year 2009 were misclassified on the Statement of Revenues, Expenditures, and Changes in Fund Balance. Other financing uses were overstated, and debt service expenditures were understated.
- e) Unearned revenue of \$27,319 for fiscal year 2009 was inaccurately included in the reconciliation between the Statement of Net Assets and the Balance Sheet. As a result, these two financial statements did not agree as required.
- f) A loss of \$546,000 on the sale of a capital asset was properly disclosed on the Statement of Activities, but the required note disclosure was omitted. In addition, the sale involved a related party but this condition was not included in the related party note disclosure.
- g) The CFDA# for the Public Health Preparedness grant from the Idaho Department of Health and Welfare (IDHW) was reported on the SEFA in error. The formal grant agreement identifies the CFDA# as 93.283, but was reported as 93.069 based on an informal communication from IDHW.

Adjustments were made to the financial statements to correct the above conditions, except for item b).

RECOMMENDATION

We recommend that the District review internal controls over the preparation of financial statements, notes, and the Schedule of Expenditures of Federal Awards (SEFA), as well as strengthen the process to ensure that financial statements, note disclosures, and the SEFA are accurate and complete.

AGENCY'S RESPONSE AND CORRECTIVE ACTION PLAN

All of the material adjustments suggested by the auditors have been implemented on the financial statements for the years ended June 30, 2008 and 2009.

In the past year, our financial statements were completed to draft stage then submitted to an outside CPA with questions. They consulted with us on final presentation format. This procedure was not adequate by itself. We will continue to use outside consultation to assist in the review of our presentation and notes before submitting future financials to the Legislative Services Office for audit, since Legislative Services Office has reversed their decision to provide limited financial statement formatting consultations.

We will continue to educate inside financial statement preparation staff. We will begin to participate in the Idaho Public Health Fiscal Officer Work Group peer review of districts' financial statements, to the extent available to us.

SECTION III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

NONE

AGENCY RESPONSE

Promoting the Health of People & Their Environment

July 19, 2010

Don Berg Audit Supervisor Legislative Services Office Idaho State legislature PO Box 83720 Boise, ID 83720-0054

Dear Mr. Don Berg:

I have reviewed the recently completed audit report of Eastern Idaho Public Health District for the Fiscal Years 2008 and 2009. The auditor's report notes one finding related to internal control weaknesses existing in the process for preparing the financial statements and note disclosures. The auditor recommendations have been considered and this is our response.

First, all of the material adjustments suggested by the auditors have been implemented on the financial statements for the years ended June 30, 2008 and 2009.

Second, in the past year our financial statements were completed to draft stage then submitted to an outside CPA with questions. They consulted with us on final presentation format. This procedure was not adequate by itself. We will continue to use outside consultation to assist in the review of our presentation and notes before submitting future financials to the Legislative Services Office for audit since Legislative Services Office has reversed their decision to provide limited financial statement formatting consultations. We will continue to educate inside financial statement preparation staff. We will begin to participate in the Idaho Public Health Fiscal Officer work group peer review of Districts financial statements, to the extent available to us.

I would like to thank you and your staff on the recently completed audit. Patrick Aggers, Jolene Crumley, and Sally Fong conducted themselves professionally in all aspects of the audit and were pleasant to work with. I appreciate the additional suggestions they made that will improve our daily operations.

0. Havre

Please extend my thanks to them.

Sincerely,

Richard O. Horne

Director

PRIOR FINDING AND RECOMMENDATION

FINDING 07S-01

<u>Internal control weaknesses exist in the process for preparing the financial statements and note disclosures.</u>

RECOMMENDATION

We recommended that the District review the internal controls over preparation of the financial statements and notes and strengthen the process as appropriate. The review should include the process for ensuring the completeness and accuracy of the financial statements and note disclosures.

AUDIT FOLLOW-UP

The District purchased resource materials to provide guidance on financial statements and note preparation and presentation. The District also contracted with an independent CPA to review the financial statement and notes.

STATUS - CLOSED

The finding was closed at the 90-day follow-up; however, it is repeated in this audit due to continued internal control weaknesses.

HISTORY

The following is a chronological history of the basic health care services that the State has provided to the public.

- 1907 The State Board of Health and counties that had local boards of health were statutorily authorized joint responsibility for public health.
- A public health district law was enacted that permitted two or more counties to establish a public health district. Participation in the forming of the health districts was voluntary.
- 1970 The legislature established a law that created seven mandatory public health districts. In the District Seven Health Department (VII), the counties designated were Bonneville, Clark, Custer, Fremont, Jefferson, Lemhi, Madison, and Teton.
- 1976 Legislative intent was expressed that the health districts are not State agencies, and that they be recognized as authorized governmental entities.
- 1986 Idaho Code was amended to allow district health departments to promulgate rules and regulations without the State Board of Health's approval.
- 1993 The legislature clarified the need for health districts to use the Idaho Administrative Procedures Act for fees and rules.

PURPOSE

The District provides basic public health services as set forth in Idaho Code, including public health education, physical health, environmental health, public health administration and all things required for the preservation and protection of public health and preventive health, including response to bioterrorism.

STATUTORY AUTHORITY

The statutory authority for the District is found in Idaho Code, Title 39, Chapter 4.

ORGANIZATION

The District is supervised by a eight-member board appointed by the county commissioners in the counties served, plus one physician member, as allowed by Idaho Code, Section 39-411. Board members serve staggered five-year terms, and are reimbursed \$75 per working day plus all necessary travel expenses. The board appoints a director to administer and manage day-to-day activities of the District. Physicians provide medical consulting services to the District.

The District is organized into five major sections.

- 1. <u>Division of Management Services</u>. Provides supporting services including management, administration, public information, information technology, building maintenance, accounting, and government support services.
- 2. <u>Division of Family and Community Health Services</u>. Provides immunization, family planning, sexual transmitted disease information, school health, and crippled children's services; encourages lifestyle changes through health promotion and educational support.
- 3. <u>Division of Environmental Health</u>. Provides public water supply monitoring, public food establishment inspection, solid waste and subsurface sewage disposal approval, and other services to protect the health of the public and the environment.
- 4. <u>Division of Nutrition</u>. Provides the Women, Infant and Children (WIC) special supplemental nutrition program for eligible clients.

5. <u>Division of Health Preparedness, Promotion and Surveillance.</u> Provides services to ensure rapid recognition and response to potential bioterrorism, natural disasters, and disease outbreak events. Additionally, this section provides education and planning and coordination between counties, hospitals, and State and local emergency responders. It also provides epidemiological investigations of communicable diseases.

The District's central office is located in Idaho Falls, with eight satellite offices in Driggs, Dubois, Challis, Mud Lake, Rexburg, Rigby, St. Anthony, and Salmon. Additional organizational information is available at www2.state.id.us/phd7.

STAFFING

At the end of fiscal year 2009, the District had 74 full time employees and 45 part-time employees for a total of 119 employees including nurses, environmental health specialists, health educators, epidemiologists, clinical assistants, nutritionists, dental hygienists, and support staff.

FUNDING

Financing for the District comes from State General Fund appropriations; county contributions; contracts from federal, State, and private vendors; fees for providing client services; the sale of septic system permits; mortgage survey services; subdivision plan reviews; and food facility inspections. Also, some revenue is generated from donations. The amount included in the District's General Fund appropriation request is determined by Idaho Code, Section 39-425. The legislature sets the District's General Fund appropriation, which can be more or less than the amount requested.

The District also receives funds from contracts with the Idaho Department of Health and Welfare, the Idaho Department of Environmental Quality, cities, other governmental agencies, as well as fees for public health services, environmental inspections, and licensing.

EASTERN IDAHO PUBLIC HEALTH DISTRICT
